

Working Safer and More Productively Doesn't Happen by Accident.

NexStar[™]
CRANE MANAGEMENT SYSTEM

That's why Auto Crane® engineers the world's most rugged, reliable service cranes, service bodies and accessories, and advanced crane control technologies to help operators work safer and more productively.

Enhanced Safety

- Auto Crane's NexStar™ crane control technology is engineered to eliminate potential overload conditions while enabling operators to perform multiple crane functions simultaneously and proportionally.

Improved Productivity

- What used to be a two-man task to position a load while controlling the crane can now be easily performed by a single person. Auto Crane puts ultimate performance in the palm of your hand.

Exceptional Return on Investment

- Only Auto Crane delivers extra long life and the industry's lowest cost of ownership and highest resale value.

Safety, time and money. Just a few reasons Auto Crane is right here, right at your service.
