

May 8, 2023

With ongoing supply challenges related to microprocessors and computer chips, Auto Crane is now sourcing an alternate control system for some non-NexStar™ wireless crane models. To make this as seamless as possible, our Price List will be updated with new part numbers for cranes impacted by this change. There will be no additional costs due to these changes.

Please make sure to reference the latest Price Book dated May 8, 2023 when placing orders to assure the correct part number is used during ordering. We will also be communicating with dealers that have open orders with these crane models, as part numbers on those open orders will need to be changed to reflect the new model.

Thank you for your continued business and feel free to reach out to me directly if you have any questions.

Respectfully,

Chris Jenkins
