

Price Increase Announcement

Valued partners,

Auto Crane is publishing new List Prices to be effective Monday, May 1, 2023. Please reference the updated List Prices to determine your costs for orders placed on or after May 1, 2023. Price increases range from 0% - 11%, depending on the item.

Electric and hydraulic component shortages, ongoing inflation and rising labor costs are all contributing to today's announcement. Our last price increase was on October 1, 2022. Since that time, almost all materials used in our operations have continued to see price hikes from our vendors, forcing these increases to the broader marketplace.

Auto Crane will honor existing quotations through their expiration term. Please reference your quote number when placing the order. Thank you for your business and continued support as we all navigate the lingering supply chain and inflationary landscape facing our businesses.

Also, please remember that Auto Crane has two separate price books; our main pricing for Finished Goods and a separate list price book for Parts. Please ensure your dealership references both price books dated May 1, 2023, as you quote future business.

Very Truly Yours,

Scott C. Hausman
