

An automatic system that manages your truck engine and PTO, boosting productivity while reducing fuel and maintenance costs.

- Maximizes Fuel Savings
- Reduces Carbon Emissions
- Extends Engine and Chassis Life

KEY BENEFITS

- **Automated Optimization:** Enhances truck engine and PTO
- **Automated Safety:** Integrates safety behaviors to reduce risks.
- **Cost Efficiency:** Lowers both acquisition and operating costs.
- **Boost Productivity:** Streamlines tasks at the press of a button.
- **Fleet Management:** Allows managers to monitor and manage engine and chassis usage effectively
