

# Work Ready Truck Walk-Around Guide

Auto Crane is the industry-leading manufacturer of telescopic service cranes, crane bodies, and accessories. We engineer products to increase productivity, improve operator safety, and maximize customer return on investment.

Feature	Advantage	Benefit
<b>BODY CONSTRUCTION</b>		
1 10 gauge galvaneal	Improves durability in heavy duty applications, lasting through multiple chassis	Lower total cost of ownership
2 One-piece side pack	Eliminates 96" of weld to prevent cracking or rust	Longer life and higher performance
3 Laser-cut openings	Allows flush mounting and clean look	Promotes a premium brand image and provides ideal decal display
4 10 gauge double-panel ridged doors	Robust doors stand up to heavy duty usage	Better durability and longer life
5 Three-point latch system	Securely locks doors preventing theft and unintentional opening	Improved security and safety
6 Weather-tight automotive seals	Keeps dust and water out of compartments	Better protection for equipment
7 Rounded corner openings and doors	Distributes stress from torsional load	Prevents cracking and extends body life
8 Robust internal stainless steel hinges	Protects hinges from the elements	Maximizes performance and life
9 Workbench bumper with integrated step	Provides large work surface with drop down step and extra-large grab handles to access bed	Maximizes safety when climbing into bed
10 Pass-through bumper compartment	Provides extra storage compartment ideal for storing long items and tools	Better utilization of space
11 12 gauge tread plate tops and bed	Durable surface does not dent or flex with heavy loads	Longer life in heavy usage
12 Integrated tie-downs recessed in body	Improves strength and access	Easier to secure items in the bed
13 Flush-mounted LED lights	Features 19 diode stop, turn, and tail lights. Can substitute amber flasher or strobe	Better visibility and versatility
14 Engineered system: Crane, body, and outriggers	Securely handles torsional loads and allows the operator to lift in any zone at 100% of the crane capacity	Improves safety and productivity
15 LED compartment lighting	Positively attached LED strip lighting mounted inside the compartment	Better nighttime visibility
16 Slammable tailgate	Easy to close one-hand "pickup style" heavy-duty tail gate	Easy to close from the ground
17 Integrated crane box	Transfers more load weight to the outriggers	Reduced stress on the chassis and body
18 Hydraulic down and out outriggers	Engineered with body for stability	Provides 100% stability for operator safety
19 Interlocking sub-frame system	Allows for a stronger and lighter weight sub-frame	Adds payload capacity and strength

Feature	Advantage	Benefit
<b>NexStar 4™ HYDRAULIC SERVICE CRANE</b>		
<b>20</b> NexStar™ Crane Management System	Smart crane technology improves performance and prevents unsafe operation	Boosts safety, productivity, and ROI
<b>21</b> Independent fully proportional control	Parallel hydraulic circuit allows multiple functions at different speeds	Boosts productivity and safety
<b>22</b> Tri-axis sensors	Measures more than boom load, includes angle of boom and angle of body	Prevents unsafe operation
<b>23</b> Overload indicator	True 100% load indicator keeps you safe	Provides real time information to the operator
<b>24</b> Speed control setting	Versatile master speed settings -- 25%, 50%, 75%, 100%	Total proportional control at every setting
<b>25</b> Low boom angle	Easy access to traveling block without sacrificing lift capability	Improves operator safety, prevents injury
<b>AC 40 HYDRAULIC RECIPROCATING COMPRESSOR</b>		
<b>26</b> Capacity	40 CFM of air flow handles up to a 1" impact	Boosts performance and productivity
<b>27</b> Receiver tank	20 gallon to 30 gallon tank ready for immediate use	Delivers air on demand to work right away
