

Dealer Information Bulletin

DATE: 9-May-17
TO: Auto Crane Dealers
SUBJECT: Electric and Electric-Hydraulic Crane Model Naming

Auto Crane is completing the new model naming of our electric cranes (EC), electric-hydraulic cranes (EHC) following the naming convention used on the hydraulic cranes (HC).

The part numbers remain unchanged where the form, fit and function are identical. The crane description which appears on shipping and invoicing documents retains the former model numbers to lessen confusion with end customers. An updated pricelist with the new crane models can be accessed in our dealer portal.

Additionally, NexStar III control is available on some of the EHC cranes.

Please contact our customer service group at 800.777.2760 or 918.438.2760 for more information.
